

# TRAINER DATABASE ACCESS APPLICATION

The Trainer Database is a searchable, online listing of trainers throughout the IATSE who can provide safety and craft skills classes for local unions. Once we review and approve your application, we will create your account and email you a link where you'll be asked to create a password. You will use these credentials to sign in and explore classes and trainers throughout the United States and Canada.

The local union president, secretary treasurer, BA, or training coordinator must complete, sign, and submit this application. Email the application to [trainerdatabase@iatsetrainingtrust.org](mailto:trainerdatabase@iatsetrainingtrust.org).

## CERTIFICATION

*The Trainer Database contains information about trainers throughout the IATSE that is voluntarily self-reported to the IATSE TTF. Because the information is voluntarily self-reported, the information that is in the database may be outdated or have errors, omissions, typos, and other inaccuracies.*

*The IATSE TTF does not evaluate, certify, approve, endorse, or recommend trainers. Inclusion does not constitute any form of endorsement of the trainer's professional skills. It is the local's responsibility to verify trainers' capacities, certifications, quality of work, and suitability to their workers' training needs. The local is responsible for making all course arrangements including securing a training venue, renting equipment, and paying for all course expenses.*

OFFICER SIGNATURE

*These policies are subject to change at any time by the trustees. The application and/or interpretation of these policies shall at all times be subject to the discretion of the trustees, to the fullest extent permitted by law.*
